**diversion**  
for safe sanitation

## Conclusion:

The **diversion** toilet offers an attractive & affordable solution for washers & wipers and is the core of a market-based approach for sanitation.

## Phase 2:

The **diversion** toilet is ready for prototype testing.  
2013: prototype testing in Kampala  
2014: ready for testing in an operational environment (TRL7)

Design by EOOS
